## WORK EXPERIENCE

### DEPARTMENT MANAGER

**Collings Guitars, February 2017 - April 2020**

- Responsible for coordinating workflow between departments and delivering on quotas
- Operated precision machinery and tools at the highest standard of quality and attention to detail
- Exercised complex problem-solving skills daily
- Drove department productivity up by 50%

### REPAIR TECHNICIAN

**Guitar Center, October 2015 - February 2017**

- Independently managed clientele and repair orders for my one-man repair department
- Delivered high-quality work in tasks such as electrical circuit modification, instrument setup, and fine woodworking
- Consistently ranked among the top 10 individuals in my role nationwide in terms of efficiency and sales

### CONTRACT MUSICIAN

**Austin Stone Community Church, July 2013 - Present**

- Long tenure of excellence and reliable service in my local church
- Completed required theological training in top 25% of my class

## EDUCATION

### UNIVERSITY OF TEXAS

**Full Stack Software Developer Certification**

- Learned a variety of software skills including frontend, backend, databases, and APIs
- Earned an 'A' average
- Built numerous full-stack applications from scratch

### TEXAS STATE UNIVERSITY

**Bachelors Degree in Psychology**

- Degree currently in progress, expected graduation spring 2021
- Currently maintaining a 3.7 GPA

## PERSONAL PROJECTS

### REACT / REDUX CLIENT PORTAL

**A Redux state-managed React web app for tracking client accounts**

- Deployed to Google Firebase using react-redux-firebase library
- Uses React / Redux to along standards and design patterns
- Built using Traversy tutorial

### PASSWORD-PROTECTED TODO APP

**A full-stack MERN application featuring a bespoke user login system**

- A fully-featured Todo application built using React and Node.js
- Uses Bcrypt library for salting, hashing, and confirming password-protected user profiles
- Express endpoints are protected by JSON Web Token authentication
- Deployed to Heroku
